DRESS FOR SUCCESS CHARITY GALA

Dress for Success

aims to empower ALL women and non-binary individuals to achieve economic independence by providing a network of support, professional attire, and the development tools to help our clients thrive in work and in life.

We believe that strong communities are made up of strong community members. We all benefit when individuals are financially secure and able to contribute to and engage with their local economies.

We still see real issues, such as gender pay gaps, and the unpaid, emotional work that women take on outside of the workplace that often has an impact on their ability to contribute to their community.
